# Introduction

Sriyaan Metals Is A Leading Supplier & Manufacturer Of Fastener In All Grades. Sriyaan Metals Is Now Serving Hundreds Of Customers In India And Around The World. Every Step, Which Has Been Taken To Lead Our Company Into The New Era Of Technology With Increasing Demands Of The Customers, We Are Proud To State That We Have Been A Company, Which Has Been Growing Since Its Establishment.

We Carry A Full Line Of Steel Fasteners Fastener Product Like Hex Bolt, Screw, Washer, Hast Alloy, Inconel, Monel, Duplex, With Wide Range Of The Product. We Have Been Successful In Catering To Diverse Industrial Segments That Includes Chemical, Petrochemical, Engineering, Etc Besides Others. For Most Requirements, We Offer Shipment As Per Customers Need.

## Our Product Range:

Bolts | Studs | Nuts | Washers | Anchors | Foundations | Rivets & Inserts

All types of Fastners, Engineering products, Bolts, Nuts, Screws, Washers, etc in all types of Materials & Grades .

**Bolts & Studs**

We are one of the leading manufacturers of hex bolt & hex screws that are available in various sizes and dimensions to suit the diverse requirements of various industries. Manufactured using premium grade material such as stainless steel, alloy steel, brass and copper, these screws fasteners exhibit least decarburization.

With the help of latest technology, we are able to offer stud bolts & threaded rods that are extensively used in various industries for fastening applications. Being properly coated, these durable rods are resistant to corrosion and are capable of yielding higher output. Further, to meet the specific requirements of our clients, we offer these rods in various customized sizes and shapes.

**Anchor**

All types of Fasteners, Engineering products, Bolts, Nuts, Screws, Washers, etc in all types of Materials & Grades.

## Washers

Leveraging On Our Advanced Manufacturing Facilities, We Are Able To Offer Our Clients, Nuts That Are Include Hex Nuts, Slotted Nuts, Break Nuts, Hexagon Coupling Nuts, Hexagon Thin Nuts, Steel Coupling Nuts And Steel Thin Nuts. Being Superlative In Quality And Precision In Dimensions, These Nuts Can Withstand Extreme Working Conditions And Pressure.

Available With Us Are Washers That Are Manufactured Using Different Grades Of Metals And Alloys. Our Range Includes Stainless Steel Washers, Carbon Steel Washers, Stainless Steel Plain Washers And Carbon Steel Plain Washers. Keeping In Mind The Specific Requirements Of Our Clients, We Offer These Washers In Various Customized Sizes And Shapes.

## Nuts

All types of Fasteners, Engineering products, Bolts, Nuts, Screws, Washers, etc in all types of Materials & Grades .

**Foundation**

The Use Of Foundation Bolts Is In The Foundation Of Engineering Structures. The Tower Foundations Bolts Are Mostly Used With Concrete Structures In The Erection Of Pillars, Columns And The Beginning Of Concrete Structures. The Stainless Steel Foundations Bolts Are Strong, Corrosion Resistant And Cost Effective. As Part Of The Bolts Is Sunk Into The Concrete As The Structure Is Developed, They Are Less Prone To Corrosion. Depending On The Application Nature, The J Type Foundations Bolts Can Be Used.

A Rivet Nut, Also Known As A Threaded Insert Or A Blind Rivet Nut, Is A Mechanical Fastener. It Is A Variation Of The Standard Rivet. Because Of Their Wide Grip Range Tolerance, Rivet Nuts Can Be Installed Into A Variety Of Material Thicknesses. This One-piece, Threaded, Counter-bored Tubular Rivet Can Be Anchored Entirely From One Side Of The Material In Which It's Installed.

**Rivets & Inserts**

All types of Fasteners, Engineering products, Bolts, Nuts, Screws, Washers, etc in all types of Materials & Grades .

Construction Projects

Solar Industries

Automobile Industries

Power Plants

Petrochemical Plants

Oil & Gas Industries

Steel Industries

Pharma Industries

All types of Fasteners, Engineering products, Bolts, Nuts, Screws, Washers, etc in all types of Materials & Grades .
